SKILLS

- **Languages**: Python, Java, C++, JavaScript, SQL, C, HTML, CSS
- **Frameworks**: Folium, Flask, Django, NumPy, Pandas, Matplotlib, scikit-learn, SQLAlchemy, FastAPI
- **Tools/Platforms**: Git, GitHub, GitHub Actions, VS Code, Power BI, MS Excel, PostgreSQL, Render, Gemini API, PDF Generation Tools, Rest APIs
- **Soft Skills**: Leadership, Time Management, Resilience, Critical Thinker, Collaboration, Adaptability, Problem Solving

PROJECTS

AI Decision Intelligence Platform | Github — Apr' 26

- Built a full-stack AI Decision Intelligence Platform using Python, FastAPI, JavaScript, XGBoost, FAISS, SHAP, and Scikit-learn for analytics.
- Developed REST APIs for authentication, CSV/PDF ingestion, document processing, ML model training, prediction generation, and task tracking.
- Implemented XGBoost forecasting/classification with feature engineering, evaluation metrics, SHAP explainability, model persistence, and FAISS retrieval.

  Tech Stack: Python, FastAPI, XGBoost, FAISS, SHAP, Scikit-learn, JavaScript

AI Powered Medical Consultation System | Github | Live Demo — Mar' 26

- Built and deployed an AI-powered healthcare app for symptom analysis, follow-up guidance, consultation history, appointments, hospital lookup, and PDF reports.
- Developed secure full-stack features with authentication, CSRF protection, database workflows, and reliable AI fallback handling for consistent user experience.
- Deployed on Render with PostgreSQL and GitHub Actions CI, adding health checks and SEO improvements for a stable, production-ready live demo.

  Tech Stack: Python, Flask, SQLAlchemy, Jinja2, HTML, CSS, JavaScript, Google Gemini API, Folium, Render, GitHub Actions

TRAINING

Data Structures & Algorithms using C++ | Certificate — Aug' 25

- Engaged in structured training focused on the design, implementation, and optimization of data structures and algorithms using C++.
- Solved algorithmic problems and developed mini-projects involving arrays, linked lists, stacks, queues, trees, graphs, and sorting/searching techniques with emphasis on optimization and debugging using GCC.
- Strengthened problem-solving ability with improved understanding of time and space complexity, OOP principles, memory management, and pointer-based programming.

CERTIFICATES/CERTIFICATIONS

- Cloud Computing – NPTEL SWAYAM — Oct' 25
- Computational Theory: Language Principle & Finite Automata Theory – Infosys — Aug' 25
- Agentic AI – Google Cloud — Jun' 25
- Code-A-Hunt 2.0 (State-Level Inter-University Hackathon) – Coding Blocks LPU — Feb' 25
- Introduction to Hardware and Operating Systems – IBM — Sep' 24

ACHIEVEMENTS

- Achieved the top position in the University French Examination. — Jan' 26
- Successfully solved over 100 algorithmic problems on LeetCode to enhance problem-solving skills. — Since May' 25

EDUCATION

Lovely Professional University — Punjab, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.40 — *Aug' 23 Present*

Archana Children's Academy — Jaipur, Rajasthan
Intermediate(PCM) Percentage: 73.40% — *Mar' 21–May'22*

Archana Children's Academy — Jaipur, Rajasthan
Matriculation Percentage: 82.50% — *Mar'19–May'20*
