SKILLS

• Languages:	Python, Java, C++, JavaScript, TypeScript, SQL, C, HTML, CSS
• Frameworks:	React, Next.js, Flask, Django, NumPy, Pandas, Matplotlib, scikit-learn, SQLAlchemy, Tailwind CSS, GSAP, Framer Motion, Three.js
• Tools/Platforms:	Git, GitHub, GitHub Actions, VS Code, Power BI, MS Excel, PostgreSQL, Render, Gemini API, PDF Generation Tools, Rest APIs
• Soft Skills:	Leadership, Time Management, Resilience, Critical Thinker, Collaboration, Adaptability, Problem Solving

PROJECTS

Apple Headphones Interactive product showcase Github Live Demo	Apr' 26
- Built and deployed an Apple-inspired interactive headphone showcase with cinematic storytelling, scroll-synced animations, and responsive multi-page experiences. - Implemented frame-by-frame hero sequences, GSAP-powered scroll interactions, dynamic image sections, smooth navigation, and optimized deployment on GitHub Page. - Delivered a production-ready immersive web experience, showcasing frontend development, animation engineering, performance optimization, and CI/CD skills. Tech Stack: Next.js, React, TypeScript, Tailwind CSS, GSAP, Framer Motion, Three.js, GitHub Actions, GitHub Pages	
AI Powered Medical Consultation System Github Live Demo	Mar' 26
- Built and deployed an AI-powered healthcare app for symptom analysis, follow-up guidance, consultation history, appointments, hospital lookup, and PDF reports. - Developed secure full-stack features with authentication, CSRF protection, database workflows, and reliable AI fallback handling for consistent user experience. - Deployed on Render with PostgreSQL and GitHub Actions CI, adding health checks and SEO improvements for a stable, production-ready live demo. Tech Stack: Python, Flask, SQLAlchemy, PostgreSQL, Jinja2, HTML, CSS, JavaScript, Google Gemini API, Folium, Render, GitHub Actions	

TRAINING

Data Structures & Algorithms using C++ Certificate	Aug' 25
- Engaged in structured training focused on the design, implementation, and optimization of data structures and algorithms using C++. - Solved algorithmic problems and developed mini-projects involving arrays, linked lists, stacks, queues, trees, graphs, and sorting/searching techniques with emphasis on optimization and debugging using GCC. - Strengthened problem-solving ability with improved understanding of time and space complexity, OOP principles, memory management, and pointer-based programming.	

CERTIFICATES/CERTIFICATIONS

• Cloud Computing – NPTEL SWAYAM	Oct' 25
• Computational Theory: Language Principle & Finite Automata Theory – Infosys	Aug' 25
• Agentic AI – Google Cloud	Jun' 25
• Code-A-Hunt 2.0 (State-Level Inter-University Hackathon) – Coding Blocks LPU	Feb' 25
• Introduction to Hardware and Operating Systems – IBM	Sep' 24

ACHIEVEMENTS

• Filed a Patent for an AI-Coordinated Distributed Directed Energy Weapon System.	Apr' 26
• Achieved the top position in the University French Examination.	Jan' 26
• Successfully solved over 100 algorithmic problems on LeetCode to enhance problem-solving skills.	Since May' 25

EDUCATION

Lovely Professional University Bachelor of Technology - Computer Science and Engineering; CGPA: 7.21	Punjab, India Aug' 23 Present
Archana Children's Academy Intermediate(PCM) Percentage: 73.40%	Jaipur, Rajasthan Mar' 21–May'22
Archana Children's Academy Matriculation Percentage: 82.50%	Jaipur, Rajasthan Mar'19–May'20
